The Journal of Systems and Software

Volume 2, Number 1, February 1981

Contents

Editors' Introduction 1

Software Technology Payoff: Some Statistical Evidence 3
W. Douglas Brooks

Embedded System Design with ADA as the System Design Language 11
Thomas J. Wheeler

System Partitioning and Its Measure 23
L. A. Belady and C. J. Evangelisti

Software Specification Using the SPECIAL Language 31
C. S. Chandersekaran and R. C. Linger

Entropy Metrics for Software Design Evaluation 39
Siba N. Mohanty

Programming Measurement and Estimation in the Software Engineering Laboratory 47
Victor R. Basili and Karl Freburger

Can the Parr Curve Help with Manpower Distribution and Resource Estimation Problems? 59
Victor R. Basili and John Beane

Natural Language Symbol String Storage 71
Lawrence J. Mazlack

Biographies 81

Volume 2, Number 2, June 1981

Contents

Editors' Introduction 83

Guest Editor's Introduction: Tool and Methodology Evaluation 85
William E. Riddle

Hard-to-Use Evaluation Criteria for Software Engineering 89
Richard Hamlet

A Study of Several Metrics for Programming Effort 97
S. N. Woodfield, V. Y. Shen, and H. E. Dunsmore

A Critical Examination of Software Science 105
J.-L. Lassez, D. van der Knijff, J. Shepherd, and C. Lassez

Measuring the Quality of Structured Designs 113
Douglas A. Troy and Stuart H. Zweben

Software Quality Metrics Based on Interconnectivity 121
Dennis Kafura and Sallie Henry

A Method for Evaluating Software Development Techniques 133
David J. Panzl

An Instrumentation System to Measure User Performance in Interactive Systems 139
Taylor L. Booth, Reda Ammar, and Robert Lenk

The External Structure: Experience with an Automated Module Interconnection Language 147
Jerry L. Archibald

An Experiment with Affirm and HDM 159
Jonathan K. Millen and David L. Drake

Evaluating a Data Abstraction Testing System Based on Formal Specifications 177
Paul R. McMullin and John D. Gannon

Biographies 187

Volume 2, Number 3, September 1981

Contents

Editors' Introduction 191

Data and Reports: Contents Design and Users Allocation 193
Niv Ahituv and Jonathan Halpern

Efficient Table-Driven Implementation of the Finite State Machine 201
P. G. Harrison

Abstraction Hierarchies in Top-Down Design 213
Glenn H. MacEwen and T. Patrick Martin

Functional Programming Analysis 225
Eldred Nelson

A Model of the Software Development Process 237
Montgomery Phister, Jr.

Programming Methodology, Organizational Environment, and Programming Productivity 257
M. J. Lawrence

Quick and Simple Procedures to Assess Software Reliability and Facilitate Project Management 271
Harvey S. Koch and Peter Kubat

Biographies 277

Volume 2, Number 4, December 1981

Contents

Editors' Introduction 279

Software Project Management Audits 281
L. Bernstein

The Softest Program Test System 289
Maria Majoros and Harry M. Sneed

Software Requirements and Specifications: A Survey of Needs and Languages 297
R. J. Abbott and D. K. Moorhead

Introduction to Collected Papers on Computing Standards for Embedded Computer Systems 317
Edith W. Martin

MIL-STD-1679, Weapon System Software Development 319
Jack Cooper

The New Software Documentation Standard: Report on the Joint Logistic Commanders Joint Policy Coordinating Group on Computer Resource Management, Computer Software Management Subgroup, Software Workshop 329
Antonia D. Schuman

Interoperability Through Effective Information Exchange Standards 337
Arthur E. Treiber

Ada Programming Language Standardization 351
Paul M. Cohen

Software QA Standards—The Coming Revolution 357
Matthew J. Fisher

Status and Outlook for DoD Configuration Management Requirements 363
Jerry Raveling

Implementation of Computing Standards 371
Gordon R. England

Biographies 379

Author Index 381

Subject Index 383
